DIMENSIONS IN MM · SCHEMATIC PREVIEW · FIT TO VIEWPORT

Standard edition	Selected size	Thread length b
IS 730:1978	M8 × 120 mm	25 + 2P

All dimensions in mm. Schematic preview from the supplied scan; nuts, runout, thread profile and some bend details are simplified. Fits the viewport automatically; do not measure the image. On a phone, swipe the drawing to inspect it.

Dimensions filled by the standard

Supplied scan, page 1 / Table 1. Length and width choices follow the listed combinations.

Dimension	Value	Origin / qualification
Nominal diameter d	8	Selected nominal size; mm
Return angle theta	25 degrees	Illustrative / customer input; numeric angle absent from supplied table
Length L	120	Preferred length; printed tolerance ±3
Inside opening / width w	14	Printed tolerance +2
Hook depth D	20	Printed tolerance +2
Dimension s	25	Supplied J-type table; printed tolerance +2
Bend radius R	≥ 4	Printed minimum; schematic bend
Thread pitch P	Not specified	Absent from supplied table. Enter it if known.
Thread length b	25 + 2P	Formula from supplied hook-bolt table
