## For creating Monopoly with credai

1. Builder Registration
2. Associate Agent / channel partner Registration

- When user will come on layout website, through layout shows booked plot, unbooked plot
- Also showcase Price of plot after registration / login of customer
- Same features should be with agent login

## Purpose of client :

1. Creating Monopoly in Amravati with all real estate agent / channel partner registration.

2. Grab other builders agents from Credai.

3. Share client layout details to other builders agents through client WhatsApp API ( Pote Township )

4. Give new layout login to Agent and Agent can share the same layout details to Agent's customer, with Agent id...

5. Now share agent all types of graphics / videos ( including festival, layout skim, theme based content to other peoples ) with name of agent and id, under banner of pote township

6. Also share blog as per point 5

7. Share payment booking reminder to Agent as well customer in three phase payment collected ( supposed payment of rupees 9 lac so payment will be 3 lac on 1st oct, 3 lac 1st Jan, 3 lac 1st April)

8. Also share upcoming projects and all to Agent as well customer with agent id

## Bitlance Purpose :

1. Now bitlance have one successful case study so we can target other builders from other district
2. From same district we have builder data, si we can pitch on same case study
